NEWS IN BRIEF

DEER CAUSE PARK CHAOS

THERE has been a call for a cull on deer in Killarney National Park. Independent Cllr Danny Healy-Rae says the roaming deer are causing accidents on roads in the area and he says they are seriously damaging property. Donie Murhill from Muckross in Killarney said he agreed with the proposal. Mr Murhill said he had his property damaged by the deer.

who had seen the story and pictures in papers such as Italy's *Gazzetta dello Sport* or the *Times of India*, on videos on the web.

Support

My Facebook page jammed with all the messages of support from men who looked me up on spec. Some wanted to talk football, many just wanted to chat me up.

Not wanting to be rude like Henry, I tried to answer as many as possible. Though I stopped short of passing on his home address to former fans who now hated him.

Simply googling Thierry Henry was enough to bring up hundreds of thousands of sites in which our campaign was mentioned.

Apart from one French man who contacted us directly at the *Sunday World*, all the readers who contacted me said Henry should personally take the rap for the double-handball and for celebrating France's "win".

Most of the world's media agreed.

Meanwhile, with the *Sunday World's* readership in Ireland alone topping the one million mark, we can truly claim to be the voice of the nation - and, now, the entire soccer-loving world.
