SECRETS OF THE DEVIL

EVIL: Dunbar made another girl (14) pregnant after killing Melissa (inset)

- He made another child (14) pregnant
- Abused his daughter (5)
- Faces a further 21 sex charges

PAEDOPHILE child killer Ronnie Dunbar made another 14-year-old child pregnant – just **FOUR MONTHS** after he killed school-girl Melissa Mahon.

The *Sunday World* can also exclusively reveal that the hulking pervert, who was jailed for life on Friday for Melissa's death, sexually abused his eldest daughter Shirley from the time she was just five.

Today, she finally reveals the full truth of a horrific childhood spent with Ireland's most depraved

father who violated her on a daily basis from the age of five until she was 13.

Meanwhile we have learned that Dunbar (44) is due to be charged with 21 counts of the sexual assault/abuse and rape of two other young girls – including the child who had his baby – within the next two weeks.

Justice

Detectives in Sligo who brought the cowardly liar to justice are understood to have received instructions from the DPP directing them to charge Dunbar now that the Melissa horror trial is over.

Gardai have DNA evidence which **PROVES** that he is the father of the now 18-month-old girl whose mother is just 16 and in care.
